- Backlit bezel buttons for easy operation in dim conditions

CONTACT US

Innovation That Matters® mrcy.com

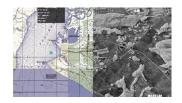

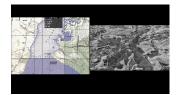

Displays only one input signal with full-screen mode.

Display two input signals simultaneously, one in a large format and the other in a configurable smaller window with picture-inpicture (PIP) mode.

Display two input signals simultaneously as equally sized images that are stretched/cropped to fit each window with split-screen (SS) mode.

Display two input signals as equally sized images (aspect ratios maintained) with picture-by-picture (PBP) or side-by-side mode. Excess screen space appears as black bars.
