- HD, SD and VGA inputs
- Multiple screen modes
- Rugged milled aluminum frame
- Handles latest signals and inputs from moving maps, sensors and more
- Optional variants: NVIS Compatibility, touchscreen, heated LCD, remote dimming, video out, DVI

CONTACT US

AVM4147 14" Widescreen HD Multi-Function Display

The AVM4147 offers four screen modes*: full screen, split screen (SS), picture-in-picture (PIP) and picture-by-picture (PBP), also known as side-by-side. Full-screen mode displays only one input signal and maintains the aspect ratio of the input source.

Split-screen mode displays two input signals simultaneously; these images are positioned next to each other and stretched vertically to fit the screen.

Picture-in-picture mode also displays two inputs simultaneously, one in a large format and one in a smaller window whose position is configurable via the display setup menus.

Like split screen, picture-by-picture or side-by-side mode displays two inputs next to each other; these images, however, retain the aspect ratios of their respective video inputs. Excess screen space appears as black bars.

*Modes are subject to change without notice.

SPECIFICATIONS

Dimensions

Display Area	14.1" (358.14 mm) diagonal
Height	8.9" (226.1 mm)
Width	14" (355.6 mm)
Depth	3.22" (81.8 mm) overall 2.00" (50.8 mm) behind mounting plate
Weight	8.6 lb (3.9 kg)

I/O

Power	28 VDC
Composite Video	3 inputs/1 output (optional)
HD Video	2 inputs/1 output
